The Northeast Texas Children's Museum is now offering a Professional Development opportunity for K-5 Science Teachers at the Children's Museum. The three-hour session includes activities relating to gas, water friction, magnets, light refraction, and air pressure with four different presenters.

The fee is \$15 per teacher; schools may register as a group with a minimum of 20 teachers and a maximum 40 teachers.

For individual teachers, the K-5 Science Professional Development Program will be offered on July 14 and July 21 from 9:00 to 12:00. Schools and individual teachers may register by calling the Children's Museum at 903-886-6055.
